Contaminated soil, water, and other cleanup debris is a toxic hazardous waste. Report spill to the National Response Center (800-424-8802) if the reportable quantity of 1000 pounds is exceeded.

PHYSICAL AND CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. In fires fueled by other materials, Meth-O-Gas[®] Q may liberate hazardous gases. Meth-O-Gas[®] Q, used as a gaseous fumigant, is generally non-corrosive under dry conditions. However, the use of liquid methyl bromide with aluminum, magnesium, zinc and alkali metals may result in the liberation of toxic gases, and possible fire and explosion. In addition, the use of liquid methyl bromide may cause severe corrosion of containers and equipment made of these metals.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This fumigant is a highly hazardous material and should be used only by individuals trained in its proper use. Before using, read and follow all label precautions and directions.

All persons working with this fumigant must be knowledgeable about the hazards, and trained in the use of required respirator protection equipment and detector devices, emergency procedures.

STORAGE, HANDLING AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **Storage and Handling of Cylinders.** Store in a secure manner either outdoors under ambient conditions or indoors in a well-ventilated area, post as a pesticide storage area. Store cylinders upright, secured to prevent tipping, as allowed by design. Cylinders should not be subjected to rough handling or mechanical shock such as dropping, bumping, or sliding. Do not use rope slings, chains, or similar devices to unload cylinders. Transport cylinders using hand truck, for truck or other device to which the cylinder can be firmly secured. Do not remove valve protection cap and safety cap until immediately before use. Replace safety cap and valve protection cap when cylinder is not in use. When cylinder is empty, close valve, screw safety cap on to valve outlet, and replace protection cap before returning the cylinder to the registrant or his designee, is authorized to refill cylinders for any other purpose.

This fumigant is a highly hazardous material and should be used only by individuals trained in its proper use. Before using, read and follow all label precautions and directions.

All persons working with this fumigant must be knowledgeable about the hazards, and trained in the use of required respirator protection, fumigant and detector devices, emergency procedures, and proper use of the fumigant.

STORAGE, HANDLING AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **Storage and Handling of Cylinders.** Store in a secure manner either outdoors under ambient conditions or indoors in a well-ventilated area. Post as a pesticide storage area. Store cylinders upright, secured to prevent tipping, as allowed by design. Cylinders should not be subjected to rough handling or mechanical shock such as dropping, bumping, or sliding. Do not use rope slings, hooks, rings or similar devices to unload cylinders. Transport cylinders using hand truck, for truck or other device to which the cylinder can be firmly secured. Do not remove valve protection bonnet and safety cap until immediately before use. Replace safety cap and valve protection bonnet when cylinder is not in use. When cylinder is empty, close valve, screw safety cap on to valve outlet, and replace protection bonnet before returning. Only the registrant, or his designee, is authorized to refill cylinders. Do not use cylinders for any other purpose.

Disposal of Pesticide. Pesticide wastes are toxic. Disposal of excess pesticide is a violation of Federal law. Pesticide wastes can be disposed of by use according to label instructions. Contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Disposal of Cylinders. To insure proper return of empty cylinders, make return shipping arrangement with the supplier.

Meth-O-Gas™ Q may be used for fumigation only. Supervision by registered applicator is required in its proper use. You must carefully read and follow all use directions, GLK 398F, and safety and precautionary statements and directions, GLK 398F. All fumigation exposure times and aerial applications must be in accordance with directions, GLK 398F.

STATEMENT OF WARRANTY

The directions for use of this product are printed on the label and should be followed carefully.

Seller warrants that this product conforms to the specifications expressed in this label and GLK 398F. Seller disclaims all other warranties, including but not limited to implied warranties of MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Seller's liability for defect, breach of warranty, or for consequential damages is limited to the amount of the purchase price.

Many pesticidal chemicals may be applied to the plants to which they are applied. The Agency has established maximum residue levels that may remain on or in the plants. It is the responsibility to see that these amounts are not exceeded. However, Great Lakes Chemical Company and its subsidiaries do not accept any responsibility for their accuracy nor for any other use.

	FIRST AID
If inhaled	<ul style="list-style-type: none"> Move person to fresh air. Keep warm. If person is not breathing, call 911 or an ambulance, then give artificial respiration, if possible. Do not give anything by mouth to an unconscious person. In all cases of overexposure, get medical attention immediately.
If on skin or clothing	<ul style="list-style-type: none"> Immediately remove contaminated clothing, shoes, and any other items. Rinse skin immediately with plenty of water for 15-20 minutes. In all cases of overexposure, get medical attention immediately.
If in eyes	<ul style="list-style-type: none"> Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. In all cases of overexposure, get medical attention immediately.

Have the product container or label with you when calling a poison center or a hospital or doctor or a poison center or going for treatment.

HEALTH HAZARD

Health hazards of overexposure are dizziness, headache, nausea, vomiting, and collapse. High concentrations cause unconsciousness and death. Repeat exposure may cause permanent damage to the respiratory system, but not the degree of exposure. Treatment is symptomatic.

PRECAUTIONARY STATEMENTS

Keep this and all contents of this container away from children and animals. Do not use near food, feed, or food processing areas. Do not use near open flames or fire. Do not use in confined spaces. Do not use in areas where people are present. Do not use in areas where people are present. Do not use in areas where people are present.

limited to the amount of the purchase price. Seller shall have no liability
for consequential damage.

Many pesticidal chemicals are poisonous and may leave a toxic residue on
the plants to which they are applied. The U.S. Environmental Protection
Agency has established maximum amounts of such pesticides on crops
that may remain on low agricultural products and it is the
responsibility to see that there is no residue on such crops in excess of
these amounts. The manufacturer is not responsible for such residue on crops
information, and if followed carefully should be safe for use.
However, Great Lakes Chemical Corporation makes no warranty
as to the safety or toxicity of any of its products.
